EXAMINER'S AMENDMENT

1. This Office Action is responsive to the Amendment filed November 24, 2004. The Examiner acknowledges the amendments to the Specification; the amendments to claims 1, 3, 5 and 6; and the addition of new claims 7 and 8. Claims 1-8 are pending.

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR

1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ronald E. Smith on December 8, 2004.

3. The application has been amended as follows:

IN THE SPECIFICATION:

In paragraph [0002], line 3, --, now U.S. Patent No. 6,709,408, -- has been inserted following "10/065,155".

IN THE CLAIMS:

d. In claim 8, line 15, "adapted to be" has been deleted.

e. In claim 8, line 16, "adapted to be" has been deleted.

4. The following is an examiner's statement of reasons for allowance:

No prior art of record teach or fairly suggest an aspiration biopsy needle, as claimed by Applicant, with a first sharp edge formed by a beveled distal end of the hollow needle body and a first slot transversely disposed relative to the longitudinal axis of the needle and angled relative to a transverse axis of the needle, such that a bottom of the slot is positioned proximal to an opening of the slot so a second sharp edge is formed for scraping tissue upon proximal-to-distal displacement of the needle, where the second sharp edge is elevated with respect to an exterior surface of the needle, or where the second sharp edge is mounted to a hinge that enables pivotal movement of the second sharp edge.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
